CRISIS IN EUROPE

Problem Definitions, Solutions, Alternatives

The perception of living in a deep crisis has conquered Europe today. While economic bad news hits the headlines, the crisis in Europe may be much broader and deeper. The economic problems spill over to other topics in the EU and the member states. Many people feel betrayed by the maneuvering of politicians and take their grievance to the streets. The legitimacy of governments and their priorities are at stake and the identity of the European Union is more unclear than ever before. If the crisis in Europe has so many faces, then who knows which solutions will work?

If you would like to take up the challenge of finding an answer to the questions outlined above, we strongly encourage you to apply for the Montesquieu Institute Masterclass 2012!

Programme

Registration period	November 10, 2011 - January 16, 2012
Introductory meeting	January 27, 2012 at the Montesquieu Institute, Lange Voorhout 86-32, The Hague
